

Laboratory Safety Guide — Room 302

ECE Department — Smart Signage Companion Document

Prof. James Thompson

Spring Semester 2026

Emergency Protocols

- **Fire:** Exit through the North door and gather at Assembly Point B.
- **Chemical Spill:** Contain immediately using the spill kit located under the main sink, then notify the lab supervisor.
- **Injury:** The first-aid kit is mounted next to the emergency shower; major incidents must be reported to Campus Security at extension 911.

Personal Protective Equipment (PPE)

1. **Lab Coats** must be worn at all times inside the lab.
2. **Safety Goggles** are mandatory when handling chemicals or pressurized systems.
3. **Gloves:** nitrile for chemical handling, heat-resistant for furnace work.
4. **Closed-toe shoes:** no exceptions.

Equipment Calibration

Before starting any sensor-based experiment, verify that every device on the workstation is calibrated against the manufacturer's specification. Re-calibration logs are stored at:

```
\\labshare\ECE302\calibration\<YYYY-MM>\
```

If a Smart Signage display reports an error code, scan the maintenance QR code on the side panel of the unit and submit a ticket via the IT Services portal.

Lab Hours

Day	Open	Close
Monday–Friday	08:00	20:00
Saturday	10:00	16:00
Sunday	Closed (authorized personnel only)	

Acknowledgement

By entering Room 302 you acknowledge that you have read and understood this document and agree to follow all safety protocols. Failure to comply may result in revocation of lab access.

Authorised by the ECE Department, Office of Laboratory Safety.
